

Product description: KORTHO SOLVENT 1

1. IDENTIFICATION OF THE SUBSTANCE OR THE MIXTURE AND OF THE COMPANY/BUSINESS

1.1 Product identifications

Product name: Kortho Solvent 1, 946 cm³ / Kortho Solvent 1, 4730 cm³
Internal code number: 054402 / 083115
Product description: Solvent

1.2 Relevant identified use of the substance or the mixture and use that is advised against

Identified use: Cleaning, thinning.

1.3 Details relating to the provider of the safety data sheet

Company: B.V. Korthofah
Lageweg 39
2222AG Katwijk ZH
The Netherlands
Telephone: 0031 71 40 60 480
E-mail address: export@kortho.nl

1.4 Telephone number in case of emergencies

Emergency telephone number: 0031 30 274 88 88 (NIVC – 24 hours a day – Intended exclusively to provide information to professional care providers in cases of acute poisoning)

2. HAZARDS IDENTIFICATION

2.1 Classification of the substance or the mixture

Classification in accordance with directive (EC) No. 1272/2008

Flammable liquids (Category 3), H226

Specific target organ toxicity in case of a single exposure, can cause drowsiness or dizziness (Category 3), H336

For the full text on H statements as set out in this section, see section 16.

2.2 Labelling elements

Labelling in accordance with directive (EC) No. 1272/2008

Pictogram

Signal word

Warning

Hazard statement code (H code)

H226

Flammable liquid and vapour.

H336

May cause drowsiness or dizziness.

Preventive code (P code)

P261

Avoid breathing dust/fume/gas/mist/vapours/spray.

Supplementary

Hazard statement

None

2.3 Other hazards

None

Product description: KORTHO SOLVENT 1**3. COMPOSITION/INFORMATION ON INGREDIENTS****3.2 Mixture****Hazardous components according to Regulation (EC) No. 1272/2008**

Chemical name	Index. No.	EC No.	Cas No.	Conc. %	Category
1-methoxy-2-propanol	603-064-00-3	203-539-1	107-98-2	<= 100	Flammable liquids 3; STOT SE 3; H226, H336

For the full text on the H statements as set out in this section, see section 16.

4. FIRST AID MEASURES**4.1 Description of first aid measures****General advice**

Seek medical advice. Show this safety data sheet to the duty doctor.

In case of inhalation

Take the victim into the fresh air in cases of inhalation. If breathing has stopped, perform artificial respiration. Seek medical advice.

In case of skin contact

Wash off with soap and plenty of water. Seek medical advice.

In case of eye contact

Rinse thoroughly with plenty of water for at least 15 minutes and seek medical advice.

In case of ingestion

DO NOT induce vomiting. Never attempt to get an unconscious person to drink (or eat). Rinse mouth with water. Seek medical advice.

4.2 Most important symptoms and effects, both acute and delayed

The most important known symptoms and effects are described on the label (see section 2.2) and/or section 1.1.

4.3 Indication of any immediate medical attention and special treatment needed

No data available.

5. FIRE FIGHTING MEASURES**5.1 Fire extinguishers****Suitable fire extinguishers**

Use water spray, alcohol-resistant foam, dry powder or carbon dioxide.

5.2 Special hazards arising from the substance or mixture

Carbon oxides.

5.3 Advice for fire-fighters

Where necessary, wear self-contained breathing apparatus when fire fighting.

5.4 More detailed information

Use water spray to cool down unopened containers.

Product description: KORTHO SOLVENT 1

6. MEASURES IN THE EVENT OF THE ACCIDENTAL RELEASE OF THE SUBSTANCE OR PREPARATION

6.1 Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Avoid breathing in vapours/mist/gas. Ensure there is adequate ventilation. Remove all sources of ignition. Beware of vapours, which accumulate into explosive concentrations. Vapours can accumulate in low-level rooms. For personal protective equipment, see section 8.

6.2 Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not allow product to get into the drains.

6.3 Containment and cleaning methods and materials

Contain spills and collect using electrically protected vacuum cleaner or by wet-mopping and transferring into a container for disposal in accordance with local regulations (see section 13).

6.4 Reference to other sections

For waste disposal, see section 13.

7. HANDLING AND STORAGE

7.1 Precautions for safe handling of the substance or mixture

Avoid contact with eyes or skin. Avoid breathing in vapour or mist.
Keep away from sources of ignition – No smoking. Take measures to prevent the creation of electrostatic charges.
For precautionary measures, see section 2.2.

7.2 Conditions for safe storage, including any incompatibilities

Store in a cool place. Store in tightly closed container in a dry and well ventilated place. Carefully close opened containers and store upright to prevent leaks.

Keep away from oxidising agents and strong bases.

7.3 Specific end use(s)

Some of the applications set out in section 1.2 - no other applications have been agreed.

Product description: KORTHO SOLVENT 1

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control parameters

Components with limit values for the workplace

Component	CAS No.	Value	Control parameters	Base
1-methoxy-2-propanol	107-98-2	TWA	100 ppm 375 mg/m3	Directive 2000/39/EC of the Commission to establish an initial list of indicative limiting values for occupational exposure.
	Comments	Identifies a potentially significant absorption through the skin. Indicative		
		SET	150 ppm 568 mg/m3	Directive 2000/39/EC of the Commission to establish an initial list of indicative limiting values for occupational exposure.
		Identifies a potentially significant absorption through the skin. Indicative		
		TWA (time-weighted average) - 8 hours	375 mg/m3	Working conditions amendment - Statutory limit values
		Skin absorption		
		TWA-15 min	563 mg/m3	Working conditions amendment - Statutory limit values
		Skin absorption		

8.2 Measures to control exposure

Suitable technical measures

Use in accordance with effective industrial hygiene and safety. Wash hands before each work break and at the end of the working day.

Personal protective equipment

Protection of the eyes / the face

Face protection and safety goggles. Use face and/or eye protection tested and approved by official organisations such as NIOSH (US) or EN166 (EU).

Protection of the skin

Handle with gloves. Properly check gloves before use. Carefully remove gloves without touching the outside with your exposed hand. Immediately throw away used gloves in accordance with the valid laboratory regulations. Wash and dry your hands. The protective gloves must comply with the specifications of EU Directive 89/686/EEC and the standard EN 374, which has been derived from this.

Glove material: Nitrile*
Thickness of material: 0.4 ± 0.05mm
Penetration time: 120 minutes
(* Tested glove Nitrile I – KCL 0730)

Body protection

Impenetrable clothing, flame-retardant, anti-static protective clothing. The type of protective features depends on the concentration and quantity of hazardous substances in the workplace in question.

Material: Kleenguard
Type: T7 LAB (jacket) – T6 5ultra (suit)
Characteristics: EN1149-1 antistatic, non-heat retaining, protective clothing to prevent incendiary discharge. Clothing with a limited service life, which provides protection against chemicals and protects certain parts of the body:

- immediately throw clothing away after use;
- immediately throw damaged clothing away;
- strictly observe the operating instructions, which is supplied with the clothing.

Product description: KORTHO SOLVENT 1

Should unexpected contamination of the clothing worn under the protective clothing occur, then it should immediately be taken off and thrown away.

Protecting the respiratory tract

Whenever there are breathing risks, where necessary use a full-face respirator combined with (US) and/or type ABEK (EN 14387) breathing pattern as a support when undertaking a factory inspection. If the face mask is the only means of protection, use a full-face respirator (oxygen mask). Use respirators tested and approved by official government bodies such as NIOSH (US) or CEN (EU).

Preventing exposure of the environment

Prevent further leakage or spillage if safe to do so. Do not allow product to get into the drains.

9. PHYSICAL AND CHEMICAL PROPERTIES**9.1 Information about physical and chemical basic properties**

a)	Appearance	Form: liquid, clear Colour: colourless
b)	Odour	No data available
c)	Odour threshold value	No data available
d)	pH	No data available
e)	Melting/freezing point	No data available
f)	Initial boiling point and boiling range	118 - 119 °C
g)	Flash point	34 °C - closed beaker
h)	Evaporation rate	No data available
i)	Flammability (solid, gas)	No data available
j)	High/low flammability or explosion limit values	Upper explosion limit: 16 %(V) Lower explosion limit: 1.8 %(V)k)
k)	Vapour pressure	14.5 hPa at 25 °C
l)	Vapour density	3.11 - (Air = 1.0)m)
m)	Relative density	No data available
n)	Solubility in water	Fully miscible
o)	Partition coefficient n-octanol / water	No data available
p)	Auto-ignition temperature	No data available
q)	Decomposition temperature	No data available
r)	Viscosity	No data available
s)	Explosion characteristics	No data available
t)	Oxidising characteristics	No data available

9.2 Other safety information

No data available.

10. STABILITY AND REACTIVITY**10.1 Reactivity**

No data available.

10.2 Chemical stability

Peroxides can form during extended periods of storage. Put the date on the container and regularly test for peroxides. Stable under the recommended storage conditions.

10.3 Potential hazardous reactions

No data available.

10.4 Conditions to be avoided

Heat, flames and sparks.

10.5 Incompatible materials

Strong oxidizing agents.

10.6 Hazardous decomposition products

Other decomposition products - no data available.
In case of fire: see section 5.

Product description: KORTHO SOLVENT 1

11. TOXICOLOGICAL INFORMATION

11.1 Information about toxicological effects

Acute toxicity

LD50 Oral - mouse - 11,700 mg/kg

Comments: Behaviour: Convulsions or effect on the occurrence of strokes Behaviour: Ataxia Lungs, Thorax or Breathing: Dyspnoea.

LC50 Inhalation - rat - 5 h - 10000 ppm

LD50 Skin - rabbit - 13,000 mg/kg

Skin corrosion/irritation

Skin - rabbit

Result: open irritation test

Serious eye injury/eye irritation

Eyes - rabbit

Result: Slight eye irritation - 24 h

Sensitisation of the respiratory tracts/skin

No data available

Mutagenicity in reproductive cells

No data available

Carcinogenicity

IARC: No component in this product, insofar as it is present in a concentration of more than or equal to 0.1% has been identified as a probable, possible or confirmed carcinogen by IARC.

Toxicity for reproduction

No data available

Specific target organ toxicity - single exposure

Can cause drowsiness or dizziness.

Specific target organ toxicity - repeated exposure

No data available

Hazard when inhaled

No data available

Additional information

As far as we know, the chemical, physical and toxicological properties have not been thoroughly researched.

12. ECOLOGICAL INFORMATION

12.1 Toxicity

No data available.

12.2 Persistence and degradability

No data available.

12.3 Bioaccumulation

No data available.

12.4 Mobility in soil

No data available.

12.5 Results of PBT- and vPvB assessment

PBT/vPvB assessment not available because a chemical safety assessment is not required/has not been performed.

Product description: KORTHO SOLVENT 1

12.6 Other harmful effects

In normal use, there are no known or anticipated environmental problems.

13. DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods

Product

Combustion in a chemical incineration plant fitted with an afterburner and a scrubber, but exercise extra caution when igniting it as this substance is highly flammable. Provide the remains and non-recyclable solutions to a licensed disposal company.

Contaminated packaging

Remove as unused product.

14. INFORMATION RELATING TO TRANSPORTATION

General information

Transport the product in accordance with the provisions of the ADR for road transport, RID for rail transport, IMDG for sea transport and ICAO/IATA for air transport.

14.1 UN number

ADR/RID: 3092 IMDG: 3092 IATA: 3092

14.2 Proper shipping name from the UN Model Regulations

ADR/RID: 1-METHOXY-2-PROPANOL
IMDG: 1-METHOXY-2-PROPANOL
IATA: 1-METHOXY-2-PROPANOL

14.3 Transport hazard class(es)

ADR/RID: 3 IMDG: 3 IATA: 3

14.4 Packaging group

ADR/RID: III IMDG: III IATA: III

14.5 Environmental hazards

ADR/RID: no IMDG Marine pollutant: no IATA: no

14.6 Special precautions for the user

No data available.

15. REGULATIONS

15.1 Specific health, safety and environmental regulations and legislation governing the substance or the mixture

No data available.

15.2 Chemical safety assessment

No chemical safety assessment has been carried out for this product.

16. OTHER INFORMATION

Full text of H statements to which reference is made in sections 2 and 3

H226 Flammable liquid and vapour.
H336 May cause drowsiness or dizziness.

List of abbreviations and acronyms

ADR Accord européen relatif au transport international des marchandises Dangereuses par Route: European Agreement concerning the International Carriage of Dangerous Goods by Road.
CAS Chemical Abstracts Service (division of the American Chemical Society).
EINECS European Inventory of Existing Commercial Chemical Substances.

Product description: KORTHO SOLVENT 1

GHS	Globally Harmonized System of Classification and Labelling of Chemicals.
IATA	International Air Transport Association.
IMDG	International Maritime Dangerous Goods code: International code for the transportation of hazardous substances at sea.
NVIC	Nationaal Vergiftigingen Informatie Centrum [National Poisons Information Centre].
PBT	Persistent, bioaccumulating and toxic.
REACH	Registration, Evaluation and Authorisation of Chemicals.
RID	Règlement international concernant le transport des marchandises dangereuses par chemin de fer (Regulations for the transportation of hazardous substances by train).
STOT SE	Specific target organ toxicity – single exposure.
vPvB	Very Persistent and very Bioaccumulative.

Classification procedures

Classification in accordance with Regulation (EC) No. 1272/2008	Classification procedure
Flammable Liquid 3. H226	Calculation method
Stot. Se. 3. H336	Calculation method

Revision

This SDS replaced the previous release with version number 06.1/03.11.2014. The SDS has been converted to the current regulations.
