TT-53 PRODUCT SELECTION GUIDE

TT53 print unit – art. 820104   **+**   **Power Supply TT/TD –** art. 820425

030561 TT-53 Standard Black 1.800 mtr.
030587 TT-53 Premium Black 1.800 mtr.
030599 TT-53 Excellence Black 1.800 mtr.
030784 TT-53 Paper Black 1.500 mtr.

Network cable RJ45 M12D
* 5 mtr – art. 170841
* 10 mtr – art. 171468

Note: This cable allows the end-user to connect the printer to the network or our *Printerface IoT controller*. One of both is needed to control the TT-printer.

I/O cable TT/TD (5 mtr)
art. 170867

Note: One will need this cable to connect the printer signals to a host machine. Signals such as *Print trigger* or *Error*.

I&C Universal TT - series bracket
art. 820257
Note: Including 4 foil guide rollers

Custom brackets: available on request

Printerface IoT controller

OR

Printerface IoT with wallmount bracket
art. 820552
Printerface IoT with standing bracket
art. 820342

Note: The Printerface is needed to operate the TT-printers. However, the end-user can also use its own (Windows based) device to operate the printer. In this case, one can download the necessary software from www.kortho.com.

## INTERMITTENT

Intermittent assembly
art. 818997

Note: This set contains:
1. Counter pressure plate with mount.
2. Printer mount.

Foil adjuster / substrate buffer
art. 819009

CONTINUOUS

Continuous 600mm assembly
art. 820368

OR

Continuous 250mm assembly
art. 820355

Note: A set contains:
1. Counter pressure roller with mount.
2. Printer mount.
3. Encoder mount.

Encoder
art. 821252

Foil adjuster / substrate buffer
art. 819009

kortho CONTROL CENTER™

!!! FREE !!!

Note: The software to control your printer with.

Additional

Set with pipe cutter and deburrer.
art. 819012
Note: useful when tailoring the universal bracket (820257)

Inline ethernet coupler (2x RJ45)
art. 170879
Note: If the situation requires a longer network cable you can use this device to interconnect an RJ45 ethernet with our network cable

16 port Industrial Fast Ethernet Switch
art. 170854
