Network cable RJ45 M12D

- * 5 mtr – art. 170841
- * 10 mtr – art. 171468

Note: This cable allows the end user to connect the printer to the network or our *Printerface IoT controller*. One of both is needed to control the TT-printer.

I/O cable TT/TD

- 5 mtr – art. 170867

Note: One will need this cable to connect the printer signals to a host machine. Signals such as *Print trigger* or *Error*
